Work Experience

Danfoss Drives via Barona

PRODUCTION

- Assembled frequency converters from frame to final product, including circuit boards, SKIIPs, and cabling.
- Performed post-production quality checks using automated test ovens.
- Logged all production steps in SAP, scanning barcodes to ensure traceability.
- Rotated across stations, working both independently and as part of a team.

Vaasa, Finland

June 2022 – February 2024

InMedi Oy

REGISTERED NURSE

- Provided overnight pediatric and hospice care for severely ill children, working independently in high-responsibility situations.
- Documented all care activities to ensure accurate and seamless handover to day teams.
- Maintained clear communication with families and care teams to support continuity of care.

Vaasa, Finland

October 2020 – June 2022

Bishop, White, Marshall & Weibel

LEAD FORECLOSURE CLERK

- Supervised the File Opening Department and served as liaison between banks and internal processing teams.
- Conducted initial case checks, including property, financial, and judicial records.
- Designed and implemented an office-wide electronic tracking system, replacing a paper-based workflow and improving file traceability.
- Trained new staff and streamlined referral workflows through digital process improvements.

Seattle, WA, USA

October 2012 – November 2014

United States Department of State

COMMUNICATIONS SPECIALIST

- Acted as liaison between applicants, passport acceptance agents, and internal adjudication officers.
- Managed emergency passport requests, call support, and front-desk interactions.
- Handled mail intake and outgoing correspondence, including suspension letters for incomplete applications.
- Edited the monthly newsletter for acceptance agents across the region.

Seattle, WA, USA

March 2007 – July 2012

Projects

WhereIs – Personal Inventory Mobile App

React Native, Expo, JavaScript,
Google Maps API, Firebase

CREATED AN ANDROID APP THAT LETS USERS TRACK PERSONAL BELONGINGS BY STORING ITEM NAMES, PHOTOS, NOTES, GPS COORDINATES, AND MAP-BASED LOCATIONS. THE APP USES FIREBASE FOR REAL-TIME DATA STORAGE AND PHOTO HOSTING, ENABLING SEAMLESS CROSS-DEVICE SYNC. INTEGRATED THE GOOGLE MAPS API FOR AN INTUITIVE, INTERACTIVE VIEW OF ITEM LOCATIONS. BUILT WITH REACT NATIVE, FOCUSING ON USABILITY WITH INTUITIVE FORMS, OFFLINE SUPPORT CONSIDERATIONS, AND RELIABLE CLOUD SYNCING TO MAINTAIN DATA INTEGRITY.

<https://github.com/chelseanorrgard/WhereIs>

Risk Simulation Game Enhancement

JavaScript, React, XLSX, HTML/CSS,
Jest

LED A TEAM PROJECT TO MODERNIZE AND EXPAND A RISK SIMULATION GAME BY REFINING GAMEPLAY LOGIC, IMPROVING UI ACCESSIBILITY, AND ENHANCING CODE QUALITY. AS PROJECT MANAGER AND CORE CONTRIBUTOR, I COORDINATED TASK DELEGATION, IMPLEMENTED EXCEL EXPORTS, INTRODUCED A MODULAR ARCHITECTURE, AND INTEGRATED PROBABILISTIC RISK LOGIC. THE TEAM ADDED EDITABLE RISK ENTRIES, DYNAMIC UI UPDATES, CLEARER SCORING, AND PERFORMANCE LOGGING WHILE KEEPING THE APP LIGHTWEIGHT AND EASY TO MAINTAIN.

<https://github.com/elifturhann/RiskSimuApp>

CryptoKnit – Cryptography & Steganography Tool

JavaScript, React, HTML/CSS, PDF
Generation

DEVELOPED A THESIS-ASSOCIATED WEB APPLICATION THAT COMBINES CRYPTOGRAPHY AND STEGANOGRAPHY BY ENCODING ENCRYPTED MESSAGES INTO KNITTING-BASED PATTERNS. IMPLEMENTED 18 CRYPTOGRAPHIC METHODS AND BUILT AN INTERACTIVE INTERFACE FOR GENERATING CIPHERS AND EXPORTING PRINTABLE KNITTING PATTERNS AS PDFS. THE PROJECT FOCUSES ON SECURE DATA TRANSFORMATION, CREATIVE VISUALIZATION, AND CLEAR PRESENTATION OF COMPLEX CRYPTOGRAPHIC CONCEPTS IN A LIGHTWEIGHT, BROWSER-BASED APP.
